Mr. Paul Walsh
Acting Deputy Director for Intelligence
Central Intelligence Agency
Washington, D. C. 20505

Dear Paul:

In response to your letter of 22 September, we have reworked General Graham's briefing [redacted] and have, I believe, incorporated all the basic changes you recommended. In order to tighten and shorten the overall presentation, we have also deleted some segments including the discussion of Soviet SLBM activities. In addition, General Graham and I have reworked the introduction to insure consistency with Admiral de Poix' presentation last year. A copy of the final revised version, including viewgraphs, is attached.

As Ed Proctor already has been informed and agreed, we are also including the briefing boards used in presentations before Congress in July which reveal Soviet activities in Somalia. A few boards also have been included which reflect Soviet equipment deliveries to Libya and Syrian military activity at the Al Tabaquah Dam. As you requested, we will not brief the board which shows BADGERS with Libyan markings in the USSR. Commander Doerr already has provided you the numbers of these NPIC exhibits by separate means.

In view of the importance of this presentation, I would appreciate your review and concurrence in these final arrangements.

Sincerely,

JOHN T. HUGHES
